Springfield, Illinois, August 25, 2005 – General Contractor, Harold O'Shea Builders has begun construction on Cherry Hills Baptist Church new church and educational facility located on Woodside and Chatham Road. Cherry Hills, 50,000 square foot design-build facility will feature a lobby, welcome and ministry center, worship/fellowship center designed to accommodate 650, multi-purpose fellowship hall with full kitchen to accommodate the congregation for special events, adult meeting rooms, conference rooms, offices as well as educational, nursery and pre-school rooms. The facility will also feature state of the art acoustics and video screen in the worship center to meet the needs of the congregation for all services. Cherry Hills has experienced tremendous growth over the years and with the new building they will be able to better serve members and visitors.

Harold O'Shea Builders and Graham & Hyde Architects will provide design-build services for this project. Martin Engineering Company will provide civil engineering; Ibrahim Engineering Corp will provide structural engineering services; and mechanical and electrical engineering services will be provided by Cochran & Wilken, Inc. PSI, Inc. will be responsible for all geotechnical engineering and construction material testing. Harold O'Shea Builders specializes in design-build services that provide owners with a seamless building project that meet and exceed the owner's needs, goals, function, schedule and budget.
