Springfield, Illinois, December 1, 2005 - The State Bank of Bement located at 180 East Bodman Street in Bement, IL has contracted with Harold O'Shea Builders of Springfield, IL to provide construction management services for a new drive-thru facility. Construction on the 700 square foot facility has begun and completion is expected January 2006. The new drive-thru will feature four drive-thru lanes, with one larger to accommodate bigger vehicles and trucks, with a drive-thru ATM. In addition to the drive-thru lanes there will be a walk-up and night depository for customers. The facility will be located across the railroad tracks on the north side of the existing State Bank of Bement.

The current bank will remain and continue its day to day operation. Once the new facility is complete, the drive-thru and walk-up facilities at 180 East Bodman will be closed, although the lobby will continue to provide services.

Harold O'Shea Builders provides Design-Build, Construction Management, General Contracting and Pre-Construction Services. O'Shea has been serving Springfield and the surrounding area since 1902. Architectural services provided by FWAI Architects of Springfield, IL.
