*Springfield, Illinois, September 15, 2006* - Harold O'Shea Builders has been selected to provide general contracting services for the West Parking Ramp Replacement project at St. John's Hospital. The project architect is Berners-Schober Associates from Green Bay, WI. The project consists of demolition of an existing cast in place concrete parking ramp and constructing a new 100,000 square foot parking ramp. The new ramp is a combination of cast in place concrete and pre-cast concrete. The project is underway and is scheduled for completion in early 2007.

Mike O'Shea states, "We have completed numerous projects for St. John's Hospital and are pleased to be selected for yet another. We are a company that focuses on building relationships as much as we do on buildings and we believe that the client relationships with St. John's Hospital exemplifies that. We are very pleased to be apart of their team for the West Parking Ramp Replacement."
